**Principal’s Report to the Tamworth School Board
August - 2009**

Enrollment Report: The summer marks a transition time for student enrollment and therefore no report is submitted. By the September 9th school board meeting we should have preliminary enrollment figures.

Restructuring Task Force: To date there have been two community members and two teachers who have indicated their interest in serving on the task force. However, additional members are needed to do our work. I would request that the board solicit 1 or 2 additional community members. I will work on adding additional staff and a couple of parents. The board should also designate two of its own as members of the task force.

Calendar:
