

Your Script

Hi, my name is _____. I am a constituent of Senator _____'s district. I am calling today to: (1) identify myself as a physician/constituent who *strongly supports* legislation (S.263), which would prohibit physicians and licensed mental health professionals from engaging in efforts to change a minor's sexual orientation, so-called "conversion therapy," as well as defining such efforts as professional misconduct; (2) note that accounts of its use continue to surface with survivors recounting horrific experiences, ranging from use of electrified devices to isolation from family members for years on end, which by any standard or definition amount to child abuse; and (3) urge the bill be brought to the Senate floor for a vote before the end of the session.
